

VirtualCable Joins the VMware Technology Alliance Partner Program

Madrid, Spain, <October 21st, 2015> — VirtualCable, the company that packs up UDS Enterprise, a VDI multiplatform connection broker for Windows and Linux, today announced it has joined the [VMware Technology Alliance Partner \(TAP\) program](#). Members of the TAP program collaborate with VMware to deliver innovative solutions for virtualization and cloud computing. The diversity and depth of the TAP ecosystem provides customers with the flexibility to choose a partner with the right expertise to satisfy their unique needs.

“We welcome VirtualCable as a valued member of the VMware TAP program,” said Howard Hall, senior director, Global Technology Partner Organization, VMware. “This membership means customers can take full advantage of a streamlined virtualization and cloud infrastructure experience. VMware provides an online marketplace, [VMware Solution Exchange \(VSX\)](#), where customers can learn more about VirtualCable’s collaboration with VMware and our continued goal of developing technologies that can transform businesses.”

“With this membership, our customers can benefit from VirtualCable’s expertise on desktop management and virtualization technologies, enabling high performance and support when deploying our technologies”, said Rafael García, sales director, VirtualCable.

The VMware Solution Exchange is an online virtualization and cloud infrastructure marketplace that provides customers with a single point of entry to discover, evaluate, and rate business solutions.

VirtualCable product information, collateral and other assets are listed within the online VMware Solution Exchange at <https://solutionexchange.vmware.com/store/companies/virtualcable>.

With thousands of members worldwide, the VMware TAP program includes best-of-breed technology partners with the shared commitment to bring the best expertise and business solutions for each unique customer environment.

About VirtualCable

VirtualCable sells UDS Enterprise through a subscription model, including product support and updates in segments based on number of users. Additionally, VirtualCable offers a broad portfolio of professional services to install and configure UDS Enterprise and other virtualization technologies.
